

Welcome to „Hyperion” University of Bucharest!

*“You do not teach others what you want, nor what you know;
you teach them what you are.”*

(J.)

Dear Students,

The Preparatory Year Programme in Romanian Language organized within Hyperion University of Bucharest, is an intensive academic programme designed to develop the linguistic and cultural competences necessary for integration into the Romanian higher education system.

Through this programme, the University seeks to facilitate foreign citizens’ access to university studies conducted in Romanian, while contributing to the development of a diverse and competitive academic community at the European level.

Hyperion University of Bucharest, the institution you have chosen for your studies, is a distinguished elite academic institution which this year celebrates 36 years since its establishment. Nevertheless, age alone is of lesser importance, as Romanian universities continue their efforts toward achieving greater visibility and recognition among the world’s leading higher education institutions.

Our primary objective is to provide education of the highest quality. Consequently, we continuously strive to align ourselves with the standards and requirements of European higher education. Integration into the European educational and research environment, the harmonization of academic specializations and curricula with European standards, and the promotion of academic excellence represent fundamental objectives of an educational system dedicated to contributing to the development of a knowledge-based society.

Achieving these goals requires a dynamic managerial strategy supported by an efficient administrative structure capable of ensuring compatibility with the standards and practices of the most prestigious European universities.
